Presentation Goal

- Brief Organization Overview
- Workload Overview
- Program Goals
- CSW Registration Process Overview
- Registration Completeness Review
- How You Can Facilitate the Review Process

adem.alabama.gov

Construction Stormwater/General Permit Section Organization Overview

Workload Overview Since Re-Organization

Construction Stormwater (CSW)

- Notices of Registration (NORs)

Total Universe as of May 11, 2009 = **~8645**

Total Issued from July 1, 2008 to May 11, 2009
= **1766**

- Notices of Termination (NOTs)

Total Processed from July 1, 2008 to May 11,
2009 = **672**

Workload Overview Since Re-Organization

General Industrial Permits (GP)

- Notices of Intent (NOIs)

Total Universe as of May 11, 2009 = ~**2891**

Total Issued from April 1, 2008 to May 11, 2009
= **202**

- General Permit Terminations

Total Processed from April 1, 2008 to May 11,
2009 = **32**

CSW/GP Section Program Goals

To issue CSW registration authorizations and General Permit NOIs to the registrant/applicant an average of 15 days after determination has been made that the NOR/NOI is complete and correct.

Types of Registrations^{1/}

- Construction Stormwater
- Mining (< 5 acres)

^{1/} For more information see the CSW Rules at
ADEM Admin. Code ch. 335-6-12

CSW Registration Process Overview (continued)

Components of the NOR Submittal

- Forms^{1/}
 - ADEM Registration Form 498
 - Inspection Reports/Summary – ADEM Form 500 (re-registrations and termination requests)
- Construction Best Management Practices Plan (CBMPP), if required
- Facility Site Map(s)
- NOR Registration Fee (Fee Schedule F)

^{1/} ADEM Forms can be found at www.adem.state.al.us/DeptForms/Formpdf.htm

CSW Registration Process Overview (continued)

Inspection Reports and ADEM Form 500

- Submittal of complete inspection summary
- The summary requirements can be found in the Construction rules at:
ADEM Admin. Code r. 335-6-12-.15(8) and
ADEM Admin. Code r. 335-6-12-.15(11)
- If not submitting the inspection report summary, then all reports should be submitted on ADEM Form 500

Linear Projects

- NOR submittal is the same, except:
- Submit one NOR per 8-digit Hydrologic Unit Code^{1/} (HUC) that the project crosses

^{1/} (<http://water.usgs.gov/GIS/huc.html>)

Incomplete NORs – Common Errors

- Incorrect or no registration fee
- Section(s) of the NOR registration form left blank
- No facility site map
- The CBMPP was either not submitted or submitted without the site map.

Incomplete NORs – Common Errors

- The Responsible Official did not sign/date the NOR
- The QCP and/or QCI did not sign and/or date the NOR
- Required inspection reports not submitted
- Greenfield fee of \$750 not submitted

Incorrect NORs – Common Errors

- Responsible Official (ADEM Admin. Code r. 335-6-6-.09)
- USGS (or comparable) Map
- Latitudes/Longitudes
- Receiving Waters
- Township, Range, Section

Incorrect NORs – Common Errors

- Inspection Reports (re-registrations and NOTs)
- Receiving Water Classification
(ADEM Admin. Code ch. 335-6-11)
- Tier 1 Waters
- 303(d)/TMDL Waters ^{1/}

^{1/}(www.adem.state.al.us/WaterDivision/WQuality/TMDL/WQTMDLInfo.htm)

What Can You Do to Facilitate the Process?

4 Things

What Else Can You Do to Facilitate the Process?

Number 1

Reminder: please ensure that you submit
complete and correct NORs

Also, submit them to the Montgomery Office,
not to the Field Offices

What Else Can You Do to Facilitate the Process?

Number 2

Utilize e-Permit for Registration
(will ultimately include 'e-Terminations')

What Else Can You Do to Facilitate the Process?

Number 3

Fully utilize all of the information on the
CSW webpage at:

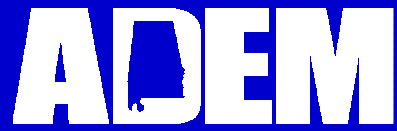

[www.adem.state.al.us/FieldOps/Permitting
Construction/Construction.htm](http://www.adem.state.al.us/FieldOps/PermittingConstruction/Construction.htm)

What Else Can You Do to Facilitate the Process?

Number 4

If you still have questions prior to submittal
of your NORs,

Please contact our office
